

MAIN ATTRACTION

Comic Life

DIRECTOR'S CUT

The main screen

The navigation bar

Provides the name of the collection and buttons for creating a new comic or accessing the "In Trays" feature.

Comic options

Tapping on a comic brings it forward and presents you with further information and options. Tapping once again on the comic activates the reader you're using right now. The other options are as follows:

Comic Buttons

Share: Email, print or upload your comic

Add: Duplicate this comic or create a new one

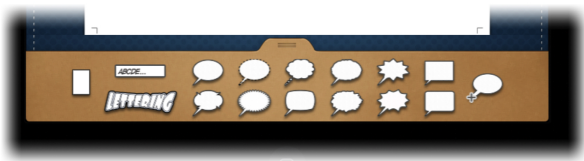

Edit: Load this comic into the editor

Delete: Remove the comic from your iPad

Drag in some panels and speech balloons

The element wells

When editing you'll find all the elements you need to make a photo comic at the bottom of your screen. To place an element on the page simply drag it from the well and drop it on the page.

Touch control

When an element is on the page you can interact with it in a number of ways. Simply tap on an element to select it. You'll see resize handles appear.

Move

To move the element just touch within the handles and drag the element to where you want it placed.

Resize

Tap an element and then drag the handles to resize it.

Rotate

Hold an element with two fingers and then turn your fingers.

Undo changes, insert images and format your comic.

The Editing Toolbar

Where you'll find options to return to the main screen, make editing changes to your comic and add or remove pages along with many other tools.

My Comics

Returns you to your collection of comics where you can create new comics and open any you've saved. Comic Life saves your work automatically.

Undo

With a tap you can undo any change.

Toolbar buttons

Info: Change an object or text

properties

Insert: Add an image or shape

Page: Switch or add pages

DIALOGUE

Adding images to panels and pages

SCENERY

Panels are designed for you to add images easily. Tap on the photo icon in the panel to reveal the image browser and tap on the image you want to add.

You can make further changes to an image that's in a panel by double tapping on the panel. The image's resize handles are then revealed, and from here you can find more editing options in the Info toolbar.

Shapes

You can add a shape from the Insert toolbar icon. Tap on the Insert icon and then drag a shape off the popover and on to the page.
